Helpful Tips and Reminders

Bike with traffic, on the right side of the road! Studies have shown that riding the wrong direction, against traffic, makes you three times more likely to be involved in a crash.

Please wear a helmet while biking.

Be predictable and use proper hand signals while biking.

Bicyclists yield to pedestrians, when passing announce yourself by saying "Passing" or "Passing On Your Left".

Keep a safe distance from parking cars, avoid getting "Doored"!

Wear bright, reflective clothing.

Watch for cars pulling out of driveways and follow all traffic signs and signals.
